

Hamilton Navy Strength Rum

57% ABV

Product of the West Indies

Hamilton Navy Strength, 114 proof, rum is a blend of 60% by volume Demerara rum, aged up to five years, and 40% by volume Jamaican rum. The bulk in the blend is 154 proof Demerara while the Jamaican component is 170 proof. These rums are blended at high proof, left to assimilate for two days, then diluted over five days to 114 proof as are all of the Hamilton rums that are bottled at less than cask strength at the Five & 20 Distillery in West field, NY.

This rum was blended and bottled for high proof rum drinks to be smoother and more drinkable than Smith & Cross at the request of tiki bartenders from NY to San Francisco.
